# Why should I consider a website audit?

From spelling, grammar and tone to functionality, flow and SEO, your website is usually your customers' first point of contact.

I expertly assess your website's copy, user experience (UX), and search engine optimization (SEO) to help ensure you're putting your best digital foot forward.

# Website Audit Packages

## THE WORDS

- **Spelling, grammar, and tone analysis**  
Ensure a consistent and professional look and feel.
- **SEO-specific copy assessment**  
Maximize your website's search engine visibility and ranking.
- **Suggested rewrites**  
Fresh ideas to help your web copy pop!

## THE EXPERIENCE

- **Flow and functionality assessment**  
Is the website's information flow easy to use and understand?
- **Link behaviour testing**  
Do all of your website's links direct the user to the pages they're supposed to?
- **Suggested changes**  
Itemized, page-by-page report on ways to improve the user experience (UX).

**Audit packages start at \$99!**
